EDUCATION

AVS Engineering College   Salem, India
B.E Electronics and Communication Engineering; GPA: 7.56   **June 2020 - May 2024**
Government.Hr.Sec.School   Kallakurichi,India
HSC - Percentage: 60.1%   **June 2019 - May 2020**
Government.Hr.Sec.School   Kallakurichi,India
SSLC - Percentage: 74%   **June 2019 - May 2020**

SKILLS SUMMARY

- **Languages**:   SQL, JAVA
- **Technical**   HTML,CSS,JavaScript
- **Frameworks**:   React js
- **Tools**:   Excel, MsWord, MySQL,Figma
- **Platforms**:   Visual Studio Code, Intellij IDEA

INTERNSHIP

FRONT-END INTERN   **july 24- september 24**
   - Completed Frontend Internship with hands-on experience in building interactive web applications.
   - Developed projects including a BMI Calculator and an Image Gallery, utilizing HTML, CSS, JavaScript, and modern frontend frameworks.

IOT INTERN   **july 22- August 22**

   - **Completed an internship in IoT**, gaining hands-on experience in developing and deploying IoT solutions, including sensor integration and data acquisition.
   - **Worked on real-world IoT projects**, focusing on system optimization, device communication protocols, and cloud-based data management

---

PROJECTS

BMI Calculator | LINK   **june 23- july 2023**
   - Developed a BMI Calculator application using HTML, CSS, and JavaScript to provide users with an interactive tool for calculating Body Mass Index based on input data.
   - Implemented real-time validation and responsive design for an intuitive user experience across different devices.

Mathematical Calculator | LINK   **august 23- October 2023**
   - **Developed a comprehensive mathematical calculator application**, implementing advanced algorithms for accurate computation of complex mathematical operations.
   - **Enhanced user experience** with an intuitive interface and optimized performance, ensuring seamless functionality across diverse mathematical use cases.

E-Commerce Website | LINK   **July 24- August 2024**
   - **Designed and developed a fully functional e-commerce website**, integrating secure payment gateways, product catalog management, and user authentication features.
   - **Implemented responsive design and optimized performance**, ensuring seamless user experience across devices and scalable architecture for high traffic.

CERTIFICATES

Programming in Java   **July 2023**
   - Mastered fundamental Java syntax, proficiently utilizing control flow, loops, functions, and data structures.
   - Acquired expertise in procedural programming paradigms and associated logical concepts, enhancing capabilities.

Fullstack with JAVA Training   **September 2024**
   - Showcasing proficiency in building end-to-end web applications using Java, Spring Boot, and related technologies.
   - **Demonstrated expertise in front-end and back-end** including database integration, and responsive UI design.

Internship Training PCB   **Feb 2023**
   - Completed internship training in PCB design and development, acquiring hands-on experience in creating schematic diagrams, layout design, an
